

# DIARY

K.V.N.SREENIVASULU

07-10-2014

7PM-7:45 PM

Discussed about the project

11-10-2014

8PM-9:00PM

Discussed some variations that we can implement

And divided the work among ourselves.I took over the task  
of writing problem statement and sample code.rajesh writes SRS and  
algorithm for Chitraang

11-10-2014

9:30PM -10:30PM

Looked at some algorithms.Thought of backtracking algorithm.

Got an idea what sample code is all about.

12-10-2014

8AM-8:30AM

Looked at some sample codes and a few conventions

13-10-2014

9:40PM-10:10PM

All three discussed and decided to put up their works on googledocs

13-10-2014

10:20PM-1:00AM

Studied the algorithm produced by Chitraang and converted it into a samplecode

14-10-2014

9:00AM-9:30AM

Made a few changes in the samplecode

14-10-2014

10PM-10:30PM

Looked for what is problem statement and some examples

15-10-2014

8:45PM-10:00PM

All three discussed about variations in the game.

19-10-2014

9:00AM-11AM

Coded the program till date

10AM-10:15AM

We discussed and I decided to do user manual

3:00PM-7:05PM

Completed the user manual.

7:10PM-7:40PM

Verified the work

05-11-14

Wednesday lab

8:30PM-10:00PM

Discussion on graphics. Got some idea of simplecpp

16-11-14

9:00AM-2:00PM

Studied all the simple cpp lectures

17-11-14

9:00AM-12:30PM

I and Rajesh decided the appearance and measurements

3:00PM-8:PM

Checked the combinations for colors on net

Wrote the code for all the types of sudoku and checked them

18-11-14

10:00AM-12:00PM

Made some changes in colors and inserted the buttons and texts

19-11-14

2:00PM-3:00PM

Discussed with Rajesh about some features like highlighting etc.

21-11-14

5:00PM-10:00PM

All three combined of code

22-11-14

2:00PM-3:00PM

Tested the Window sudoku and some part of jigsaw sudoku

23-11-14

5:00PM-8:00PM

all three discussed and finalised the code

24-11-14

9:00AM-2:00PM

Completed the user manual

6:00PM-9:00PM

Made minor changes in code and user manual.
