

## Stage 2

21/10/2014

Time Spent: 1 hour

- We meet in the hostel 15 mess and divided the work for the second part of our project.
- We worked out the logic behind our program.

26/10/2014

Time Spent: 1 hour

- We, all of us met in the mess and discussed our project and also the future plans.

4/11/2014

Time Spent: 2 hour

- During our lab we had a meeting wherein we discussed about the project and also showed our work so far to the TA who suggested several improvements in our coding, specifically to add more comments.

7/11/2014

Time spent: 1.5 hour

- I created reallocation function

17/11/2014

Time spent: 2 hour

- We didn't do much work during the end-sem duration but after the exams we started working again and had a meeting in the mess.
- In the meeting we discussed our progress so far, combined our individual efforts and planned on the future work.

19/11/2014

Time Spent: 5 hours

- I along with Saksham removed errors from the program which took a LOT of time and work.

20/11/2014

Time Spent: 4 hours

- Vaibhav discussed with me and Saksham about graphics in our project but we had several problems and we were not able to sort them out.

- We talked to our friends but still couldn't display the values of the game board on the problem board on clicking.

21/11/2014

Time Spent: 4 hours

- Our code without graphics was complete and the game was fully functional.
- We had a meeting in the mess where we discussed the problem but were unable to find the solution to it.

23/11/2014

Time Spent: 4 hr 30 min

- We met with the TA to discuss our problem but we still couldn't solve it.
- But he told us that our code without graphics was good so we decided to not use graphics at all and added some features to our non graphics program to make it look better.

24/11/2014

Time Spent: 2 hour

- We had a final discussion in the mess regarding our project and we finished the srs and the project report
