PROJECT DIARY

Gowtham B

- *7-10-14   2 Hrs   GROUP MEET   IN HOSTEL*

  Choosing The Topic:

  Discussed the pros and cons of different topics uploaded in course homepage.

  A Decent amount of time was spent to think about new ideas regarding the topic, with no luck.

  Sudoku Quest was finally chosen for the topic.

- *7-10-14   1 hr   INDIVIDUAL*

  Searched for good topics in internet..Came up with an idea of creating a project about tum tum.

  Finally discussed with my team mates and found that the idea was not that effective..

- *10-10-14   1.5 Hrs   GROUP MEET   IN HOSTEL*

  Finally the topic was chosen(Sudoku auto solver).Discussed about the features to be included in the program.Decision was taken to include timer and comments in the pr

- ***13-10-14   1 Hrs   GROUP MEET   IN HOSTEL***

  A Brief Layout for Each Program Window was Designed.

- ***14-10-14   1 hr   INDIVIDUAL***

  Downloaded a few Sudoku solving apps in my mobile phone…Tried to get think about the main screen and the layout of our program's graphics.

- ***17-10-14   1.5 Hrs   GROUP MEET   IN CS LAB***

  Discussed about the Graphics to be included in the program.

  QT creator was decided to be used to incorporate graphics into the program.

- ***18-10-14   5 Hrs   GROUP MEET   IN HOSTEL***

  User Manual was created by me and Srinath While SRS Document was made done by Abdul and Sahil.

- ***19-10-14   6.30 Hrs   GROUP MEET   IN HOSTEL***

  Project report for the first stage was done by me.. Completed a part of solver function…

- ***14-11-14   30 mins   GROUP MEET   IN HOSTEL***

We met in the hostel and discussed about the work to be done. We divided the work among ourselves.

- *16-11-14   3 hrs   SELF*

Wrote the Sudoku autosolver code and debugged it .

- *18-11-14   2.5 hrs   SELF*

Searched about GTK in the internet for 1 hour. Tried to install GTK in Srinath's laptop.

- *19-11-14   2 hrs   SELF*

Watched GTK videos for 30 minutes and tried to write some functions in it (1.5 hrs)

- *20-11-14   9 hrs   GROUP*

We had a group meeting we discussed about the interface and worked with GTK.After that I tried to include timer to our window

- *21-11-14   6 hrs   GROUP & SELF*

Took a sample code of timer from the internet and tried to modify it to make it suit for our screen. Debugged the generator part.

- *22-11-14   2hrs   SELF*

Helped Sahil in adding fine features to our windows.

- ***23-11-14   3 hrs   SELF***

  Debugged the small errors in our program. Completed User manual for second stage with some modifications in user manual of stage 1

- ***23-11-14   3hrs   GROUP***

  Designed the orientation and positions of buttons and labels in the user window and helped Sahil to do them.

- ***24-11-14   5hrs   GROUP & SELF***

  Tried to improvise timer for the window. Modified user manual and project report for the second stage…
