

PROJECT DIARY - Rampal Dahiya.

## 27 October 2014 :

After deepawali again meet for long time and discuss our program function some data pranay has written and many function we written

pranay told now endsem is near than we meet after endsem and decide if we have some free time than we will be write code .

## 5 November 2014 ;

Our lab endsem have end except Gurjot than we 3 meet mess and discuss our program and make some another code .

Pranay decide not take more because main endsem coming soon .

Decide no meet till end of endsem .

## 16 November 2014:

12.00 mid night – All team meet.

12.00-1.00: We discuss about different functions and features such as sign in, sign out for creating the user interface of movie library.

1:00 AM to 3:00 AM:-Coding for the above discussed features and combining of the other snippets coded by Gurjot Singh done at his place.

## 20 November 2014:

11:00 PM-12:00 AM:-All team meet. Discussed about handling the database of movies, their years, like searching, movie, sorting them in chronological order, alphabetical ordered.

Then we dispersed and executed coding of different parts individually.

After that I tried to coded the function for searching of year and sorting.

## 22 November 2014 :

10.00 pm - Discussed about doing graphic in code. Saw to the various function and their call. Dispersed to do individual works.

## 23 November 2014:

1.00 am- discusssion about adding review and rating feature, also thought abt adding a feature favouriting a movie..but later dropped this idea for now.

## 24 November 2014:

7.00 pm Working on code continuity, and discussion about project report and other documents, about who will write what.

Peer review discussion.
