Project Diary - Gurjot Singh walia

27 October '14

Meet after such a long time. We discussed how to go about our database server. Aslo, discussed various functions, their uses, and finer points required to make them work.

2 November '14

Decided to drop file handling and use SQL as it seemed to be better because of lesser execution time. And less no of files needed to be opened. Dispersed.

5 November '14

Discussion about graphics, that did not really decide anything. But everyone agreed on their individual parts and also that thsi would be last meet before endsem exams.

16 November '14.

Discussed graphics. First meet after endsems exams.

Was given the part to prepare the Login function.

Worked on "sign-in" function.

23 November '14

Discussion about adding review and rating function , and also wanted to add the function to favorite a movie, but we put this idea on the hold.

24 November '14

Made Project report and met in the mess to discuss the varoius aspects of submissions. Encountered few bugs in the program discussed how to remove them.

Self and Peer review discussion.
