

Project diary:

Date:20/10/14-As I was at home I attende our team meeting on facebook & decided to include simplecpp.

Time:30 min

Date:24/10/14-I read something on simplecpp via lecture slide from cse site.

Time:30 min

Date:27/10/14

This is a team meeting we all worked together & discussed something about library for time segment & I worked on simplecpp commands.

Time:1:00 hr

Date:31/10 /14

This is also a team meeting in this we all installed the simplecpp in our laptops & I worked on int also.

Time:1:30 hr

Date:2/11/14

Today I discussed with my friends about simple cpp to understand it deeply& wrote some codes.

Time:1:30 hr

Date:5/11/14

This is a team meeting we discussed in it about mainly the main part of code&I worked more on simplecpp which is relevant to our project.

Time:1:30hr

Date:8/11/14

In this meeting I mostly helps the other two members of my team in their work.

Time:1hr

15/11/14

As there is endsem in last few days I am not able to do much work in this time so in this meeting I did some work on combining the time part in main fn.

Time:1:00 hr

Date:18/11/14

In this meeting we worked together to combine graphics with main fn.

Time:2:30hr

Date:19.20,21/11/14

In these days I was continuously working on graphics to include in main game with a lot of discussion with frndz.

Time:4:00hr

Date:22/11/14

In this we are doing the same thing .We are trying to complete the task of combining the graphics & main code. It took a lot of time to debugging the program.

We also decided to include two modes in the game in respect to time.

Time:3:00hr

Date:23/11/14

In this meeting we did some improvisation part & mostly the writing part of user manual,SRS,project report etc.

Time:2:00hr

Date:24/11/14

In this meeting we just checked the final code & user manual etc.

Time:30 min

Total time:20 hr
