

DIARY ENTRIES

1st November we had meeting on how to exactly execute the entire Project .Distributed our required function's .We decided to make 2 player game first and then will convert it into a multi-player game. Finally we will make graphics.

5th November – I made some of the functions. I made explode1center that was quite lengthy.

17th November – We had meeting today. All three were present. We discussed the problems faced in making the functions and tried to overcome all the problems.

18th November – I made other explode functions , singleplayer, computeturn today.

19th November – Again we met and discussed the problems while making functions

20th November – Today, we saw videos for graphics from cse.
We didn't do any work on 21st and 22nd due to the endsem of CS101.

We finally dropped idea of doing graphics ,due to lack of time on 23rd November .

24th November – we are finally ready with CHAIN REACTION .
