

**DATE** : 17/11/2014

**TIME** : 2 hrs 30 min.

**VENUE** : My Room.

**DISCUSSION:** I discussed with my team members about the code of Upward function which was going to be used in our game.

**DATE** : 18/11/2014

**TIME** : 3 hrs.

**VENUE** : My Room.

**DISCUSSION:** I with my team members wrote the code for upward function required to move tiles in the game. But found some errors while compiling the function.

**DATE** : 19/11/2014

**TIME** : 3 hrs.

**VENUE** : My Room.

**DISCUSSION:** I correct the errors found in code for upward function with the help of my team members and compile it. Program for upward function was completely done. I and mahesh with help of shubham wrote the program for downward function.

**DATE** : 20/11/2014

**TIME** : 3 hrs 30min

**VENUE** : My Room.

**DISCUSSION**: I studied about random function and took references from “Let’s C++” by “Yashwant kanetkar” . I started to write the code for random number generator. I help Mahesh to compile the program for right function .

**DATE** : 21/11/2014

**TIME** : 4 hrs.

**VENUE** : Vivek 's Room.

**DISCUSSION**: Until now game was limited to only one input (w or s or a or d). I and mahesh introduce some extra functions for running game(loop associated with asking of input “w,s,a,d”) continuously. But we found some errors while executing program.

**DATE** : 23/11/2014

**TIME** : 3 hrs.

**VENUE** : My Room.

**DISCUSSION**: I corrected the errors that were found while compiling the program. I introduced code for random number generator and also corrected the bugs for it.
