SLOT 11 GROUP 03

OTHER MEMBERS: C. VISHWESH

RAHUL KIRAN

1 Oct,2014:

Teams for the CS project were formed.

8 Oct,2014: (9.30-10.30 PM):

 We had a team meetimg and decided our topic to be encryption.

13 Oct,2014: (8.30-10.00 PM):

 I and Vishwesh discussed with the TA regarding the topic and difficulties we might face while making this in the cs lab and decided our cipher.

14 Oct,2014: (10.00-11.30 PM)

We had a team meeting and decided our cipher for encryption and the format of our user interface. For the first stage I was given the task of compleying the project report and user manual.

15 Oct,2014: (11.00AM-1.00 PM)

I and Vishwesh sat together and started righting some model code .I also started with the project report and user manual.

17 Oct,2014: (10.00-10.45 PM)

We had our final team meeting before first stage to check each others progress and comment on their work.

18 Oct,2014: (3.00-4.30 PM)

I completed the project report and user manual.

19 Oct,2014:(10.30-11.30 PM)

we all gathered together, finalized the work and uploaded it.

28 Oct,2014:(9.30-11.30 PM)

we all returned from our holidays and had a meeting on the progress our work and how to manage time between endsems.

2 Nov,2014:(11-12 PM)

I and Vishwesh worked on our encrypt and decrypt function.

5 Nov,2014:(9.30-10.15 PM)

We had our last meeting before midsems. Agreed on using Cimg library for image processing.

14 Nov,2014:(9.30-11 PM)

I started working on GUI and integrated gtkmm with codeblocks in ubantu and used internet to learn its various codes.

15 Nov,2014:(10.00-11.00 PM)

Had a team meeting. Saw others progress

17 Nov,2014:(5.30-8.30 PM)

I made all the required windows using Gtkmm.

19 Nov,2014:(6.30-9.15 PM)

Completed the encrypt and decrypt function.

20 Nov,2014:(8.00-10.15 PM)

integrated the above two function with the graphics

23 and 24 Nov,2014:

Sat for the whole days trying to debug our programm.
