

STAGE II-DIARY

-Arushi Bansal

25oct

Studied structures.

26oct

Wrote some code, studied further

30oct

Lab session. Tried to learn 'fork' from our TA.

3nov

Lab session. After advice from our Professor who told us that there is no need to learn multi-threading, as simplecpp would solve our purpose, we spent time on learning simplecpp properly.

Endsems post this.

16nov

Code restructured post learning OOPs and simplecpp graphics. Planned out work schedule for the rest of the week.

17-21nov

Wrote code.

23&24nov

Updated and edited SRS document, Project Report and User Manual.
Improved parts of code that were not working properly.

Peer Review

I gave myself a 4.5 for stage I and my team gave me .

For stage II I gave myself 5 points and so did my team.
