

# Personal diary

Name:Aditya Patil(Team Leader)

Roll no:100020017

Lab batch:11 Monday

Team :3

DATE:11/10/2010

TIME:9:15 PM TO 9:45PM

VENUE:CS101 LAB

In our lab our first discussion took place. I had ideas for topics like pocket tanks and banking application.We argued on stressing at which aspect of project either graphical or computational.We finally agreed on taking topic of banking application.I put forward my view on banking interface, and including real life banking facilities.

DATE:12/10/2010

TIME:8:30 PM TO 9:30PM

VENUE:in front of SAC

At our second meet we discussed on the distrubution of workload of our group topic.We decided to take up data generation i.e. Module 1.I put my valueble inputs on suggesting to add a new feature of nominee list . Thus one can add or delete their nominee. Also for a security measure I suggested that we should have a new part i.e of security code. Hence a person would be able to succesfully change his acount information and transaction details. We decided that in our own group

1. Data rectification & formatting- Aditya(me) & Mahesh
2. Documentation – Anil & Kanishka
3. Data collection – Saurabh

DATE:13/10/2010

TIME:9:30 AM TO 11:00AM

VENUE:H1 computer room

The work of Data generation is on hold so I and Mahesh helped Anil for preparing documenting dairy of team meet on 11th and 12th oct. I also contibuted in preparing “Project Information Page”.
