

# Individual Project Diary

Name : *Prateek Agrawal*

Roll No. : 100050025

Batch 33

Team 2

## Week 1 (12th October to 19th October)

The topics I've worked upon, are :

- Understanding basic GUI and how to work with EzWindows.
- Creating a bitmap image and loading bitmap images in the window.
- Writing a code for taking the snake head image in the window.
- Learning about dealing with mouse control in EzWindows.
- Discussed about the bonus points and the fruits required in the game and made their images.
- Helped in drawing out a rough sketch of the program window.

## Week 2 (20th October to 24th October)

The topics I've worked upon, are :

- Learning about taking input from the user via mouse click.
- Learning about function that helps in automatically calling another specified function after mentioned intervals of time.
- Finding errors in our code for the smooth functioning of the project.
- Discussing possible modifications in the program with other members of other teams.

## Week 3 (25th October to 31st October)

**25th** - Prepared for ME113 quiz.

**26th** - Gave the quiz and then Had a small group discussion regarding the project.

**27th** - Prepared for Inorganic quiz. Did some work regarding maps.

**28th** - Prepared for Chemistry lab.

**29th** - Did almost nothing much relevant. Missed the train to jaipur.

**30th** - Went to jaipur and couldn't do much in the next week.

## **Week 4 (1st November to 9th November)**

**1st to 5th** - Didn't do much. Tried making some map sketches for the snake game.

**6th to 8th** - Tried finding more functions of Ezwindows. Finally prepared some levels with other members and integrated them to the program written.

**9th** - Prepared the welcome screen with the team members. Finally tested it before demonstration.
