HIMANSHU DENGRE

MEET 5:

DATE:25-10

VENUE: H-15 B. ROOM 801

TIME:2 HOURS

DESCRIPTION:

I was given the work to write 3 functions firstly to save all the moves of the game secondly to write them into files and finally to read them while using review option.

MEET 6:

DATE: 30-10

VENUE:H-15 MESS

TIME:3 HOURS

DESCRIPTION:

I wrote the starting two function but was unable to make a file of given string by user and to write all moves in it ,errors were there in my function so we decided to cancel saving feature of the game.

MEET 7:

DATE :15-11

VENUE:H-15 MESS

TIME: 4 HOURS

DESCRIPTION:

i was having many problems in writing the functions and to use saving feature and my teammates also had dropped the idea to use allegro so on that day we had an idea to use simple cpp graphics to make the game easier and faster because of less time.

MEET 8:

DATE:24-11

VENUE:ZULFIQAR'S ROOM

TIME:8 HOURS

DESCRIPTION:

my teammates had done the related work of coding and all of graphics so i just helped them somewhat on mixing the code with grpahics beacause our game was not runnung on simple terminal of c++ so graphics was neccessary part of the game so we just did that and i also

had the data of our meetings and all so therefore i wrote the project diary.
