

CS-101: PROJECT DIARY

C. Vishwesh

140050031

SLOT 11 GROUP 03

1-October-2014, Wednesday: Teams for the CS project were formed.

8-October-2014, Wednesday: (9.30-10.30)

We had a group meeting to finalize our topic as encryption.

9-October-2014, Thursday:

I searched the net for some information relevant to our topic.

13-October-2014, Monday (8.30-10.00 PM):

I discussed with the TA regarding the topic and difficulties we might face while making this in the cs lab with Yathansh and decided our final cipher.

14-October-2014, Tuesday: (10.00-11.30 PM)

We had a team meeting and decided our cipher for encryption and the format of our user interface. I took the task of writing the algorithm.

15-October-2014, Wednesday: (11.00AM-1.00 PM)

I along with Yathansh wrote some model code. I also helped with the project report and user manual.

16-October-2014, Thursday: (10.00-11.00 PM):

I wrote down some more codes.

17-October-2014, Friday: (10.00-10.45 PM):

We had a team meeting to review each others work.

19-October-2014, Saturday: (9.00-11.30 PM):

i wrote some more codes and we all gathered and submitted our work.

28 Oct,2014:(9.30-11.30 PM)

we returned from Diwali break and had a meeting on the progress our work and how to manage time between endsems.

2 Nov,2014:(11-12 PM)

I along with Yathansh worked on our encrypt and decrypt function.

5 Nov,2014:(9.30-10.15 PM)

had our last meeting before midsems. Agreed on using Cimg library for image processing.

14 Nov,2014:(9.30-11 PM)

I integrated Cimg library with codeblocks and started working on steganography

15 Nov,2014:(10.00-11.00 PM)

Had a team meeting. Saw others progress

18 Nov,2014:(2.30-5.30 PM)

I started stego encrypt and decrypt code

19 Nov,2014:(8.30-11.15 PM)

completed the stego encrypt and decrypt functin.

21 Nov,2014:(8.00-10.15 PM)

had a final riview on the stego functions.

23 and 24 Nov,2014:

Sat for the whole days with the team trying to debug our programm.
