13/12/14

14/12/14

END SEM FOR OTHER SUBJECTS OVER****

15/12/14

I read about parser on the net and how to use but very less information was present on the web.

16/12/14

Graphics in simple cpp.

17/12/14

No Work.

18/12/14

Finally our team's self-working parser was made by other group member. I just learnt its logic.

19/12/14

Today our entire program was taken together and made into one single fully functional Graph Plotting Program.

20/12/14

Made functions to verify the range entered by user and also functions to verify the domain entered by user. Learnt isnan and isinf functions.

21/12/14

More debugging and suggestions on the interface of the graph plotter and its working.

22/12/14

Preparation for CS-101 END SEM EXAM.

23/12/14

Finalising of SRS, REPORT, MANUAL, and some minor changes in the main program code.
