

# STATEMENT OF PURPOSE

I, **Nama N V S S Hari Krishna(170050077)**, if elected for the post of **Class Representative**, promise to strive to the best of my abilities to develop an essential much needed bond and act as an effective unbiased bridge between the student community and the official authorities, for all cumulative needs.

Having seen and understood all the problems faced by students in my first year, my main motto is to interact with my peers, indulge and help them in their duties whenever necessary and ensure that these problems do not occur again under any circumstances. Here are my duties as a CR and a few initiatives which I wish to undertake.

## GENERAL DUTIES:

- Make sure that majority of the class is happy with the **time-table and no clashes** exist between any two courses.
- Arrange an extra class or a tutorial whenever the professor asks for.
- Help my peers in course **registration**, if required.
- Make sure to state the **exact attendance policies** at the beginning of each course to avoid any future confusions.
- Act cleverly in an instantaneous manner in times of link crash or when two exams are on the same date and so on.
- Collect **reviews of all exams and issues** and submit it to the professor which may aid him in the course in the future.
- **Help other council members** during every event.
- Convince the professor to adjust the **timetable** when required to provide a **long vacation**, instead of a discontinuous set of holidays.

## INITIATIVES:

- Conduct **fundae talks** with seniors about coming semesters.
- Make the entire **internship database** of seniors effortlessly available for reference to students, helping them in their decision making.
- Try and persuade the professor to take a **revision/overview class every month**.
- Make resources like **handwritten class notes, pdfs** and try to provide selected problems from the professor handy to students.
- Arrange a **meet with Faculty Advisor** and an informal students-professor meet(if possible) at least once in a semester.
- Propose in bringing to use a **google drive** interface, onto which we can immediately upload **all course related documents** (tutorials, lectures, assignments, etc.).
- Propose in bringing to use the 'Telegram' app, whose **spam-free channel** feature is of immense help to convey information.
- Arrange for a **Help session** whenever required, depending on the circumstances.
