The Indian Conference on Computer Vision, Graphics and Image Processing (ICVGIP) has been organized every other year since 1995 by premier academic institutions and research and development laboratories. The objective of the conference is to bring together researchers in the academic institutions and R&D laboratories working in the above fields and to use this as a forum to exchange views and ideas in these topics of current research.

Bhubaneswar, the capital of the state of Orissa, is located in the eastern part of India and well connected by air, rail and road to many major cities in India. Places in and around Bhubaneswar have a number of attractions to offer to the visitors: famous temples and historic shrines as well as a wide range of handicrafts and handwoven textiles. The Udayagiri and Khandagiri hills have a network of Buddhist and Jain caves created almost two thousand years ago. The magnificent Sun Temple at Konark is on the UNESCO World Heritage list. Puri, located on the Bay of Bengal, has one of the most beautiful beaches in India. Chilika Lake, the largest brackish water lake in Asia, abounds with migratory birds during the winter.

Original contributions are solicited for presentation at ICVGIP 08. The topics of interest include (but not limited to) the following:

- Stereo Vision
- 3D Shape and Structure Analysis
- Motion and Video Analysis
