

Call for Papers DAR 2014

Workshop on Document Analysis and Recognition
Sunday, 14 December 2014, IISc Bengaluru

DAR 2014 is a satellite workshop of ICVGIP 2014

Digital libraries, camera phones and stylus-based mobile computing devices have created new, challenging research issues and significantly increased the scope and relevance of the field of document analysis and recognition (DAR). The aim of this focused workshop is to bring together all the key researchers in related fields to present their cutting edge work and discuss the future directions of research in DAR.

Topics of interest include, but are not limited to:

- Text recognition, including from video sources
- Document layout analysis, understanding and restoration
- Historical and degraded document analysis
- Multilingual document recognition
- Document image compression
- Camera based document analysis
- Handwriting recognition technologies
- Writer/style identification
- Document image retrieval
- Performance evaluation and metrics

Workshop format

DAR 2014 is a 100% participation, one-day, single-track workshop featuring invited talks, oral and poster presentations.

Submission

DAR 2014 invites original, previously unpublished work and significant extensions of previous conference publications (with restrictions). The submissions undergo blind review, where the referees remain anonymous for the authors throughout the process. Papers SHOULD NOT EXCEED 6 PAGES IN THE ACM FORMAT. See submission instructions at ICVGIP site. Papers can be submitted at <https://cmt.research.microsoft.com/DAR2014>

Important Dates

Full Manuscript due:	17 October 2014
Author Notification:	12 November 2014
Camera-ready Paper:	18 November 2014

Proceedings

Arrangements are being made to publish all the selected papers in the digital archives of ACM.

Program Co-Chairs

Chakravarthy Bhagvati
University of Hyderabad
Gurpreet Singh Lehal
